

Ammended Section Syllabus for Business Calculus

Course Title/Section. Math 1020 Section 003

Instructor. Michael Nelson

Office Location and Office Hours. Due to the recent pandemic, I will not be in my office for the rest of this semester. However, we can still meet online via Zoom. If you would like to meet with me online, please send me an email (mnelso7@clermson.edu) so that we can schedule a meeting. My schedule is pretty flexible (for instance I should always be available on Tuesdays and Thursdays).

Course Information. For the rest of the semester, you will be given video lectures via Zoom. I will also be giving more homeworks. You will need to submit the rest of your homeworks online to canvas. There should be many ways to do this. For instance, you can take a picture of you homework with your phone and then upload the .jpg file to canvas.

Imortant Notice. There has been a change to the course syllabus and course calendar! Please refer to the course website (https://mthsc.clemson.edu/ug_course_pages/MATH1020) for the **ammended** course calendar as well as the **ammended** course syllabus, which has details on course grading and policies. I've also uploaded both the ammended course calendar and ammended course syllabus to canvas. There is some important information on the course syllabus (test 3 has been cancelled!), so please be sure that you read it. The ammended section syllabus (i.e. the syllabus you are reading right now) is an *addendum* to, and does not supersede, the ammendedcourse syllabus (again, which can be found at https://mthsc.clemson.edu/ug_course_pages/MTHS1020).
